Chairman and Chief Executive Officer
Becton, Dickinson and Company

Forward-looking statements

- These materials include forward-looking statements and it's possible that actual results could differ from our expectations. Factors that could cause such differences appear in our fourth quarter earnings release and in our recent SEC filings.

Non-GAAP financial measures

- These materials also include Non-GAAP financial measures. A reconciliation to the comparable GAAP measures can be found in our fourth quarter earnings release and the related financial schedules.
- Certain financial information excludes the impact of the foreign currency translation.
- Reconciliations of certain forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures are omitted from the financial schedules as we are unable to provide such reconciliations without unreasonable efforts. Sufficient information is not available to calculate certain forward-looking adjustments required for such reconciliations, including future restructuring charges and acquisition-related costs. We expect these future charges and costs could have a potentially significant impact on our future GAAP financial results.
- Basis of Presentation for Revenue Growth Metrics: Comparable FXN revenue growth reflects growth on a currency neutral basis, adjusted to include Bard in all current and prior periods, excludes divestitures, and reflects BD / Bard portfolio alignment. Reconciliations of comparable FXN revenue growth to the comparable GAAP measure are included in our fourth quarter earnings release and the related financial schedules.
- A copy of our earnings release, including the financial schedules, is posted on the "Investors" section of the BD.com website.

Note: All figures on accompanying slides are rounded. Totals may not add due to rounding. Percentages are based on un-rounded figures.
FXN = Estimated foreign exchange-neutral currency growth. \$ = Dollars in millions except per share data.
